"CAN'T TOUCH THIS"

LEOMINSTER HIGH SCHOOL
LEOMINSTER MA 01453

1990-1991

We picked the theme "Can't Touch This" for our yearbook not because we liked the song itself so much, but because our class is just untouchable. We came to LHS with a less than positive reputation. After four years we have become one of the best classes to ever go through LHS. Our class has been involved with every activity possible and we have always done our best (Win or Lose).

We think that we can speak for the majority of our class when we say these have been the best four years of our lives. We know that ten years from now when we flip through this yearbook, that it will bring back some of the greatest memories of our lives. We hope this yearbook will do the same for you.

Good Luck to all in the future,
Yearbook Editors

CLASS OFFICERS

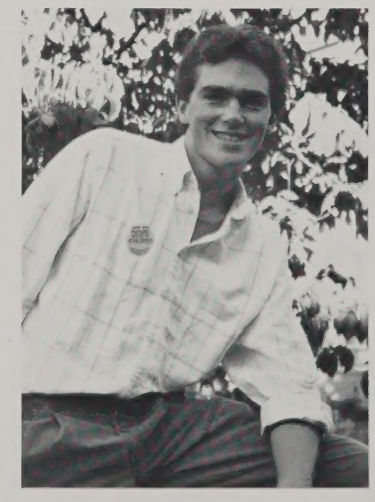

For the past four years we have witnessed a class to be considered "dangerously destructive", grow and mature into one of the finest classes to ever graduate from Leominster High School. In a time where diversity and distinction play a domineering role, the class of "91" has been able to put aside preconceived opinions and gel together as a cooperative, outgoing, respected group of young adults. When our parents told us it was going to be "the quickest four years of our lives", who could ever believe they were telling the truth. Now it seems like yesterday that we stepped into the halls of high school as freshmen and understood how small a locker was. However, the countless memories we hold of both the school and one another can never be lost. Although the events in high school now exist only in our memories we can still put the knowledge and experience gained from high school to use in the world we are about to enter. For a class with such vivacity and potential can only be destined to bring a positive change to the world. Our graduation is not "Goodbye", but "Until we meet again!"

Our sincerest thanks and love,

Classic Memories: To me High School has been more than a learning experience and I'm glad.

The four years that we have spent in high school were the most important years of our lives. High school has played a major part in the type of people we have become. We have been shaped by the education we have gained, the clubs we have joined, and the activities we have undertaken. Our class as a whole has gone from being the most dreaded, to being the best and most responsible. As a class we have matured greatly over the past four years and have become very independent. Our class advisors, Mrs. Elaine Jones and Ms. Linda Chester, have had much to do with our tremendous accomplishments.

If it were not for these two very special people we would not be graduating with the memories that we now hold dear. The dedication and effort of Mrs. Jones and Ms. Chester allowed us to hold successful fund-raisers our freshman and sophomore years. It was through their endeavors that our Junior prom and class trip were two remarkable successes. Also we would never have been able to produce one of the unsurpassed Thanksgiving rallies ever in L.H.S. history without their supportive persistence.

We would like to dedicate this yearbook to our class advisors, Mrs. Jones and Ms. Chester, as a tribute to them for all their support and assistance over the past four years. All of their time and efforts have never gone unnoticed and we appreciate them very much.
